CBC Talk on Uncertainty Quantification - January 16, 2012

The parameter uncertainty study will be based on a library for uncertainty quantification developed by Jonathan Feinberg.

Total number of participants: 9
 Total number of guests outside of CBC: 0
 Number of different nationalities represented: 5
 Total number of speakers: 1
 Total number of talks: 1

Jonathan will give a brief introduction to his library on Monday, starting at 9.30 in Bakrommet.

Anyone interested is welcome to attend.

The talk will also function as a starting point for discussion on research collaboration with NTNU on parameter uncertainty quantification in heart mechanics models. Other potential research collaborations with the NTNU group can be of interest as well. Victorien Prot from the Biomechanics group at NTNU will visit us for the talk.
